

## Соединительный блок

### Назначение:

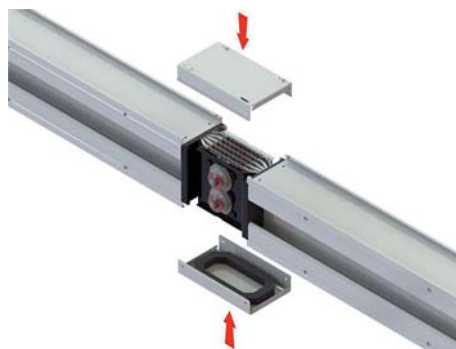

- соединение между собой секций шинопроводов.

### Характеристики:

- дополнительные желоба для отвода тепла в изолирующих разделителях;
- гайка со срывной головкой для удобства монтажа;
- компенсация температурного расширения шин.

| Номинальный ток, А | Материал шины | 3P+N         | 3P+N+Fe/2    | 3P+N+Fe      |
|--------------------|---------------|--------------|--------------|--------------|
| 630                | алюминий      | PTN91EMON1AA | PTN91IMON1AA | PTN91GMON1AA |
| 800                |               | PTN91EMON1AA | PTN91IMON1AA | PTN91GMON1AA |
| 1000               |               | PTN92EMON1AA | PTN92IMON1AA | PTN92GMON1AA |
| 1250               |               | PTN93EMON1AA | PTN93IMON1AA | PTN93GMON1AA |
